REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art fails to teach a combination of all the limitations as claimed in the independent claim 1, wherein the claimed invention comprising a pair of endpieces having rear ends coupled to the temples, each of the endpieces including a horizontal first hole at a forward end for permitting a fastener to drive into to fasten the first endpiece and the first lens together, and two elongate first slots above and under the first hole respectively; a bridge interconnected the first lenses, the bridge including two horizontal second holes at both ends for permitting two fasteners to drive into to fasten the bridge and the first lens together, and two elongate second slots above and under the second hole respectively, and a pair of second lenses each including an inner recess snugly fitted onto the second slots and an outer recess snugly fitted onto the first slots so that the first and the second lenses are closely attached together, as claimed. The prior art does not disclose or fairly suggest, by themselves or in combining with any other reference, to meet a combination of all the limitations as claimed in claim 1. Therefore claims 1-5 could be allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
